NOTE: Survey Definitions

Surveys undertaken by the field interviewer organization have been broken into two groups; Type A and Type B depending upon their complexity. Their complexity is determined by the length and type of questionnaire, difficulty of questions, type and length of interview, nature of information. The difference between the two types of surveys are best seen through examples.

Type "A" Retail Outlet Survey is a business survey requiring enumerators to confirm if establishments are still in existence or have closed or relocated and to identify new establishments within certain specified geographic locations.

Labour Force Survey requires a monthly visit requiring answers to simple questions on a one page questionnaire.

Highly Qualified Manpower Survey, although a one of a kind survey, was a self completed questionnaire requiring the enumerator to call only when there was no mail-back or when the questionnaire was incomplete or incorrectly completed.

Type "B" Family Expenditure Survey has a 32 page questionnaire with an interview which can last up to 4 1/2 hours in length. The information collected is very personal such as drinking and smoking habits, family income and expenditures, life style habits. Because of the necessity to deal with the household resident, many of the interviews are conducted during evening hours.

Prices Survey requires the enumerator to determine the volume seller of an item by grade, quality and size and report on price movements of this item during its shelf life. The enumerator must understand and interpret grade and quality specifications in order to determine substitution if any and observe and report on marketing and retail practices which affect survey data.

That pursuant to Vote L-150 of the Appropriation Act No. 2, 1969 and to Order in Council P.C. 1969-1301 of 25th June, 1969 a loan of \$1,200,000 at 7 7/16% interest was made to the Lakehead Harbour Commission on June 30, 1969 for the expansion of the Keefer general cargo marine terminal at Thunder Bay repayable over a ten-year term in twenty equal semi-annual instalments of principal and interest;

That pursuant to Order in Council P.C. 1972-1911 of 29th August, 1972 which provided for the acceptance of prepayments of principal without penalty, the Lakehead Harbour Commission made prepayments in 1970 and 1971 totalling \$171,178.99;

That due to the loss of revenue caused by an unforeseen decline in the tonnages of general cargo handled at the terminal since 1972, the Harbour Commission reported deficits in that year and in 1973;

That pursuant to Order in Council P.C. 1974-185 of 23rd January, 1974, the Lakehead Harbour Commission established a tariff of cargo rates to offset these recurrent deficits but has reported a further revenue short-fall caused by a series of labour stoppages which affected Great Lakes shipping in 1974; and

That in order to lessen the continuing strain on the working capital resources of the Harbour Commission it is desirable to extend the repayment period of the loan proportionately to the further life expectancy of the expanded general cargo facilities.

THEREFORE, HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Acting Minister of Transport with the concurrence of the Minister of Finance, is pleased hereby to approve the terms and conditions governing repayment of the balance of the loan set down in the Appendix hereto.

established. Preliminary work on the runway is expected  
to begin in the fall of 1975. However, the work may be  
delayed until the fall of 1976. In either case, the

WHEREAS the Minister of Transport reports that the Management of the Canadian National Railways advise as follows:

That Grand Trunk Western Railroad Company, one of the companies comprised in the "National Railways" in accordance with the Schedule to the Canadian National Railways Act has, as a result of a redevelopment of the Detroit waterfront, disposed of certain lands in the City of Detroit including the Detroit Ferry Slip which was heretofore used to move Canadian National traffic from the City of Detroit to the City of Windsor;

That rail traffic of the Canadian National Railway in the City of Detroit has previously been interchanged with the Grand Trunk Western Railroad and moved by CN ferry from the Detroit Ferry Slip to the City of Windsor;

That Detroit waterfront redevelopment will require that traffic of the Canadian National move from the east yard of the Grand Trunk Western Railroad in the City of Detroit, through the Penn Central Tunnel, to a point of connection with the Essex Terminal Railway in the City of Windsor where it will be inter-switched at a point of existing interchange with the Canadian National at George Avenue in the City of Windsor;

. . . /2

- 2 -

That Grand Trunk Railroad Company, as agent for the Canadian National Railways, has entered into an Agreement dated the 6th day of March, 1974, whereby traffic, interchanged at the east yard of the Grand Trunk in the City of Detroit will move over trackage of the Penn Central Transportation Company through the Penn Central Tunnel to trackage of the Essex Terminal Railway at a point of existing connection between Penn Central and Essex Terminal; Penn Central trackage in Canada, over which the Grand Trunk will operate as agent for Canadian National Railways under the proposal, will be from the International Boundary to the point of existing connection between Penn Central trackage and that of the Essex Terminal in the City of Windsor designated as points "E" and "D", respectively, on a plan annexed to the agreement as concluded between trustees of the Penn Central Transportation Company and the Michigan Central Railroad Company, the Canada Southern Railway Company, the Detroit River Tunnel Company and the Grand Trunk Western Railroad Company;

That the designation of the Penn Central Transportation Company, the Michigan Central Railroad Company, the Canada Southern Railway Company and the Detroit River Tunnel Company, pursuant to section 23(2) of the Canadian National Railways Act, is required by reason of the fact that trackage over which operation is contemplated is held by Penn Central Transportation Company under and by virtue of various lease agreements with the said companies, all of which is more fully set forth in the Agreement dated the 6th day of March, 1974;

That the Canadian National Railways have entered into an Agreement dated the 9th day of January 1975 with the Essex Terminal Railway Company whereby the Essex Company agrees to lease to Canadian National the following trackage:

- (i) between mileage 3.20 and 3.56, which trackage is designated in blue on the plan marked "A" which forms part of the said Agreement, the said trackage being for the exclusive use of Canadian National, its assignees or sub-lessees,

- (ii) between mileage 3.56 and 3.57, which trackage is designated in orange on the plan marked "A" which forms part of the said Agreement, the said trackage being for the use of Canadian National, its assignees or sub-lessees, in common with the Essex Company and any other companies to whom trackage rights have been or may be granted;

That in order to provide the Grand Trunk Western Railroad with the necessary interchange facilities, Canadian National Railways have further entered into an Agreement to sublease to the Grand Trunk Western that trackage which Canadian National has obtained under lease from the Essex Terminal Railway.

THEREFORE, HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL, on the recommendation of the Minister of Transport, pursuant to section 23(2) of the Canadian National Railways Act, is pleased hereby

- (a) to approve entry into the Agreement dated the 6th day of March, 1974, pertaining to running rights by the Grand Trunk Western Railroad Company over the tracks of the Penn Central Transportation Company from the International Boundary to the point of connection with the Essex Terminal Railway Company designated as points "E" and "D", respectively, on the plan attached to the said Agreement between the Penn Central Transportation Company and the Grand Trunk Western Railroad Company;
- (b) to approve and designate the Penn Central Transportation Company, the Michigan Central Railroad Company, the Canada Southern Railway Company and the Detroit River Tunnel Company for the purposes of the said Agreement dated the 6th day of March, 1974;
- (c) to approve entry into an Agreement dated the 9th day of January, 1975, with the Essex Terminal Railway Company with respect to the lease of certain trackage designated as between mileage 3.20 and 3.57 Essex Terminal Railway;
- (d) to approve and designate the Essex Terminal Railway Company for the purposes of the said Agreement dated the 9th day of January, 1975; and

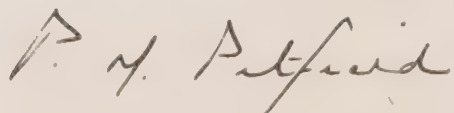

- 4 -

- (e) to approve the entry by Canadian National into an Agreement dated the 21st day of January, 1975, with the Grand Trunk Western Railroad which Agreement subleases to the Grand Trunk Western Railroad trackage leased by Canadian National from the Essex Terminal Railway under terms of an Agreement dated the 9th day of January, 1975.

## SCHEDULE

Terms and conditions for contributions by the Secretary of State to the provinces and the territories in respect of programmes relating to bilingualism in areas of provincial competence and territorial responsibility.

1. Except as hereinafter provided, each payment in respect of the contribution to a province for minority language instruction during each calendar year shall cover a three month period and shall be based on relevant statistics relating to numbers of students and average instruction cost per student prepared by Statistics Canada in consultation with the province. One such payment each year shall be adjusted to reflect the final figures covering any preceding calendar year.

2. For the purpose of calculating the contribution referred to in section 1, the following formula shall be applied:

- a) any student in elementary or primary school who receives 75% or more of his or her instruction in the minority language shall be deemed to be a full-time student;
- b) a student who receives 60% or more of his or her instruction in the minority language in secondary institutions shall be deemed to be a full-time student;
- c) the percentages referred to in paragraphs (a) and (b) shall be calculated having regard to all students in the province at the applicable level receiving instruction in the minority language; and
- d) a student receiving less than the percentages of instruction referred to in paragraphs (a) and (b) in the minority language at his or her level shall be deemed to be a fraction of a full-time student based on the amount of instruction he or she receives in the minority language.

3. The Secretary of State may pay to each province in respect of each calendar year for each full-time student equivalent an amount equal to 9% of its average instruction cost per student at the applicable level.

4. The Secretary of State may pay to each province in respect of each calendar year an amount equal to  $1\frac{1}{2}\%$  of that province's average instruction cost per student at the applicable level as a contribution in respect of additional administrative costs incurred for minority language instruction, such amount to be calculated on the total number of students of the minority language whether such students are already studying in their mother tongue or not.

5. The Secretary of State may also pay to each province in respect of each calendar year for second language instruction an amount equal to 5% of that province's average instruction cost per student, such amount to be calculated according to the full-time student formula set out in paragraph (d) of section 2.

6. The contributions referred to in sections 3 and 5 may be made in respect only of officially recognized and provincially supported teaching at the elementary and secondary levels.

7. The Secretary of State may pay to each province in respect of each calendar year an amount not exceeding 10% of the annual provincial operating grant which is attributable to minority language education to provincially recognized and supported minority language post-secondary institutions.

8. The Secretary of State may make available to the provinces during each calendar year tuition and travel bursaries to enable second language and minority-language teachers to upgrade their qualifications.

9. The Secretary of State may make available to the provinces during each calendar year fellowships to enable full-time post-secondary students to spend a year studying in their other official language, or, in the case of such students who are minority-language students, and at the discretion of the provincial governments, to study in their own official language.

10. (a) The Secretary of State may make available to the provinces during each calendar year contributions towards travel costs to enable minority-language students who are unable to study in their own language in their own province to travel to other parts of Canada where they can so study. The contributions shall represent the actual cost of two round-trips per student per year and can be renewable.

(b) A student claiming a contribution towards travel costs pursuant to paragraph (a) of this section shall not in the same year be entitled to a fellowship under section 9 of this Schedule.

11. The Secretary of State may reimburse each province up to an amount equal to a maximum of \$100,000 in respect of each calendar year for capital and other non-operating related costs incurred in the establishment or improvement of language training centres for the official languages, and any such payment may be cumulative, including therein funds to cover amounts that were not paid to the province in a preceding year of the programme. Such centres shall be designed essentially to improve the language training facilities available in teachers' colleges, but may also be available to other groups and to the public in general.

12. Bilateral arrangements between the Federal Government and the governments of Manitoba and Alberta may be initiated or continued under which financial support may be made available to the French language teacher-training facilities at Collège de St-Boniface in Manitoba and Collège St-Jean in Alberta. The terms under which such assistance may be initiated or continued shall be a matter of negotiation between the Secretary of State and the provincial authorities concerned.

13. The Secretary of State may make contributions to the provinces and the territories during each calendar year for special projects allowing the acceleration and improvement of teaching in the minority official language as well as second language learning, that are not otherwise herein provided for, but no contribution that exceeds 50% of the total cost of a special project may be made without the prior approval of the Treasury Board.

14. The Secretary of State may make contributions to associations of independent schools of the kinds described in sections 1, 2, 3, 5, 8 and 13 of this Schedule and, in addition, may make further contributions

in respect of the costs of administering those contributions, but no contribution under this section shall be required to be made in accordance with the method of payment prescribed in section 1.

15. The Authority to make contributions contained in this Schedule shall, subject to amendment or revocation hereof, continue from year to year so long as the said contributions may be authorized by parliamentary appropriations.

16. In this Schedule:

- a) "minority language" means the English language in the Province of Quebec, and the French language in other provinces, and
- b) "second language" except in sections 8 and 13 means, in the Province of Quebec, the study of English by pupils or teachers normally studying in French and, in the other provinces, the study of French by pupils or teachers normally studying in English, and in sections 8 and 13, means, in all the provinces, the study of English by pupils or teachers normally studying in French and the study of French by pupils or teachers normally studying in English.
